

# Analysis and Design of Large Scale Software II (SENG 401)

## Architecture Assn 4: Marking Key

SENG 443 Software Architecture, Winter 2007  
Architecture Project Part4: Code View. Marking Sheet

Group#:

Note: marks in any category may be negative.

/100

	attribute mark	section pos	
Executive Summary		?	8
Summarized the system accurately? (updated?)	2		
Appropriate length?	2		
Appropriate level of detail?	2		
Appropriate use of language?	2		
Other			
Global Analysis			
Factor Tables		?	14
At least 3 new factors? (multiplier)	2		
Reasonable factors?	4		
Reasonable flexibility and changeability?	2		
Reasonable impact analysis?	2		
Other			
Issue Cards		?	18
At least 3 new or significantly modified issue cards? (multiplier)	2		
Reasonable Issues?	2		
Issues numbered? Proper sequencing? (-2 deduction)	0		
Influencing factors included?	2		
Influencing factors included and reference factors in the factor table?	2		
Solutions sections included and reasonable?	2		
Strategies included and reasonable? No obvious ones left out?	2		
Related strategies section there included and reasonable?	2		
Other			
Central Design Tasks		?	24

Appropriate prose introducing the whole section?	2		
Appropriate prose describing each of the diagrams and possibly each section?	2		
2 new deployment relationships diagrams? Quality?	8		
Correct use of elements and relations?	4		
Reasonableness of diagrams? (design decisions)	4		
Overall neatness and understandability	4		
Other			
<b>Global Evaluation</b>		?	6
Evaluation of results of decisions? Interaction among decisions?	6		
Other			
<b>Build Procedure</b>		?	6
Appropriate choices?	2		
Appropriate analysis?	4		
Other			
<b>Configuration Management Plan</b>		?	6
Identification of configuration items?	1		
Versioning defined?	1		
Release planning?	1		
Change management process?	1		
Configuration status control and management?	1		
Procedures for configuration verification?	1		
Other			
<b>Traceability</b>		?	8
Cross references: design artifacts traceable to earlier artifacts?	4		
Previous views updates to reflect decisions made (or reversed) in this view?	4		
Other			
<b>Overall Document</b>		?	10
Overall impression: understandability, presentation, readability, formatting, supporting material	3		
Grammar and spelling	3		
References: included, properly cited, properly formatted	2		
Glossary: included, appropriate, complete	2		
Other			
<b>Total Mark</b>			? 100
